### STUDENT TYPES

Students are assigned to student types in the following manner:

- Based on the educational goals that students select, either as their informed goal once enrolled in community college, or from CCC Apply if no informed goal is available
- If no informed goal or CCC Apply information is available, based on behavior that indicates adult education course-taking (for both Adult Education/English as a Second Language and Short-Term Career Education)
- If no goal information is available, and the student does not display Adult Education/English as a Second Language or Short-Term Career Education course-taking behavior, they will be assigned to the Undecided/Other group

This hierarchy is used because goal data on adult education students is partial and behavior analyses can be used to assign adult education students to the appropriate goal. Also, many adult education programs intentionally combine English/math and occupational skills.

#### *Adult Education/English as a Second Language*

- Goal to improve basic skills in English, reading, or math
- Goal to complete credits for a high school diploma or GED
- Goal to move from noncredit coursework to credit coursework
- Took 12+ contact hours in a noncredit adult basic education, adult secondary education, or ESL courses

#### *Short-Term Career Education*

- Goal to earn a career technical certificate without transfer
- Goal to discover/formulate career interests, plans, goals
- Goal to prepare for a new career (acquire job skills)
- Goal to advance in current job/career (update job skills)
- Goal to maintain certificate or license (e.g. Nursing, Real Estate)
- Took 12+ contact hours in a noncredit career and technical education or workforce preparation course

#### *Degree/Transfer*

- Goal to obtain an associate degree and transfer to a baccalaureate granting institution
- Goal to transfer to a baccalaureate granting institution without an associate degree
- Goal to obtain a two-year associate degree without transfer

#### *Undecided/Other*

- Goal of undecided
- Goal of life-long learning
- Goal of four-year students earning credits with goal of meeting four-year requirements
- No goal information is available, and the student does not display Adult Education/English as a Second Language or Short-Term Career Education course-taking behavior

## TIMEFRAMES

Information is provided for the following years (unless noted otherwise):

- 2017-2018
- 2016-2017
- 2015-2016
- 2014-2015

Academic years include the leading summer plus fall, winter, and spring terms.

## SNAPSHOT AND COHORT VIEWS

Snapshot views display information based on students who met the criteria for each metric within the selected year. Therefore, the specific students may not be the same from one metric to the next within each student journey. For example, the students who completed transfer-level English and math in their first year are likely not to be the same students who earned an associate degree in that same year.

In Release 3.0 of the Student Success Metrics dashboard (scheduled for May 2019), a cohort view will be released that displays information based on students who enrolled in college for the first-time ever in the fall of the selected year. The goal identified by the student in their first year of college will be used to assign students to the appropriate student type in the cohort view.

## DATA DISAGGREGATION

Disaggregated data will be provided by the following demographic variables:

- **Gender:**  
Value options: Female, Male, Unknown/Non-Respondent, Multiple Values Reported
- **Race/Ethnicity:**  
Value options: American Indian/Alaska Native, Asian, Black or African American, Filipino, Hispanic, Native Hawaiian or Other Pacific Islander, Two or More Races, White, Unknown/Non-Respondent, Multiple Values Reported
- **Age Group:**  
Value options: Less than 20, 20-24, 25-39, 40-54, 55 and Older, Unknown/Unreported, Multiple Values Reported
- **Financial Support:**  
Value options: Economically Disadvantaged, Pell Grant Recipient, Promise Grant (BOG Waiver) Recipient, Not Economically Disadvantaged, Not a Pell Grant Recipient, Not a Promise Grant (BOG Waiver) Recipient
- **First-Generation:**  
Value options: First Generation, Not First Generation
- **Foster Youth:**  
Value options: Foster Youth, Not Foster Youth

- **Disabled:**  
Value options: Disabled, Not Disabled
- **Veterans:**  
Value options: Veteran, Not Veteran
- **LGBT:**  
Value options: LGBT, Not LGBT

## COMPARISON GROUPS

Comparison data will be provided for:

- **State Median:** is based on the 114 colleges plus the three noncredit institutions. Counts, dollar values, and percentages are medians across all students in the state.

In Release 3.0 (May 2019), comparison data will be provided for the following:

- **District Total:** is based on all of the colleges and noncredit institutions that are tracked separately in the Chancellor's Office Management Information System (San Diego Continuing Education, North Orange Continuing Education, and City College of San Francisco's noncredit programs) within a specific community college district. Counts are sums across colleges, dollar values and rates are medians across students in the district.
- **Micro-region Median:** is based on all of the colleges and noncredit institutions within a specific Doing What Matters microregion. Counts, dollar values, and rates are medians across all students in the microregion.
- **Macro-region Median:** is based on all of the colleges and noncredit institutions within a specific Doing What Matters macroregion. Counts, dollar values, and rates are medians across all students in the macroregion.

## DATA LIMITATIONS

### **Missing and Suppressed Information**

- If fewer than ten students were in the cohort for a metric, or if fewer than ten students attained the metric, data will be suppressed in the dashboard.
- In data disaggregations where only one category is suppressed, the next largest category will also be suppressed.
- Treatment of missing data is described in the notes section for each metric in the Data Element Dictionary.

### **Deduplication**

In cases where students are enrolled at more than one college, and have provided conflicting information regarding goals or characteristics, assignment will be handled as described below. In cases where students are pursuing both adult education/ESL and short-term career education goals at the

same institution, assignment also will be handled as described below. As a result, regional and statewide totals may not match the sum of college-level totals.

- *Goal*: Use latest provided goal, or if there is more than one goal in the same term, assign to the highest level of educational attainment (Degree/Transfer, then Short-Term Career Education, then Adult Education/ESL)
- *Gender*: Use latest category provided statewide, or if a student has more than one gender or unreported anywhere in the system, assign the student to the “multiple values reported” category which is different than the “unknown/non-respondent” category that corresponds to the “X” selection for the data element
- *Race/Ethnicity*: Use latest category provided statewide, or if there is more than one selection in the same term, assign the student to the “multiple values reported” category which is different than the “unknown/non-respondent” category that corresponds to the “X” selection for the data element
- *Age*: Use age as of October 15<sup>th</sup> of the academic year anywhere in the community college system, or if a student’s age is reported differently at various colleges, the student will be assigned to the “multiple values reported” category which is different than the “unknown” category that corresponds to a “YYYYMM99” or “99999999” entry
- *Financial Support*: if a student received financial support at any college, they will be assigned to the relevant financial support category at all institutions
- *First Generation*: if a student is listed as first generation at any college, they will be considered first generation at all colleges
- *Foster Youth*: if a student is listed as foster youth at any college, they will be considered foster youth at all colleges
- *Disabled*: if a student is listed as a DSPS student at any college, they will be considered disabled at all colleges
- *Veterans*: if a student is listed as a veteran at any college, they will be considered a veteran at all colleges
- *LGBT*: if a student is listed as LGBT at any college, they will be considered LGBT at all colleges

#### **Data Sources**

- Community college metrics are based on records submitted by community colleges to the California Community Colleges Chancellor’s Office Management Information System (MIS), from student self-reported information in CCC Apply (the student application form), and the Chancellor’s Office Transfer Bucket, which combines information from the National Student Clearinghouse (which tracks enrollments at colleges across the country) with direct matches with CSU and UC.
- Most employment and earnings metrics are based on records in California’s Employment Development Department’s Unemployment Insurance data. Unemployment Insurance data only contain wages for those employed in an occupation or industry covered by Unemployment Insurance in California. This excludes individuals employed by the military or federal government, and those who are self-employed, employed out of state, unemployed, or not in the workforce after completion of an award. The Unemployment Insurance data do not indicate how many hours an individual worked, or part time/full time status or employment in field of study.
- Employment in field of study is based on student responses to the CTE Outcomes Survey. Given that participation in the survey is voluntary and that average response rates are 30-35%, this

metric may be incomplete and not fully representative for all former students. Furthermore, the survey is only sent to the following types of students: 1) received an approved Chancellor's Office certificate or degree with a vocational flagged Taxonomy of Programs (TOP) code and were enrolled in 0 – 5 units each semester in the subsequent year (not enrolled or minimally enrolled); 2) received a non-approved Chancellor's Office certificate of at least six units with a vocational flagged TOP code and were not enrolled in the subsequent year; or 3) completed at least nine units (within the prior three years) that were SAM coded A-D (with at least one course SAM coded A-C) in any TOP code and were not enrolled in the subsequent year and did not transfer or receive a certificate or vocational degree. The CTE Outcomes Survey responses from noncredit programs are not included, as this version of the survey is still being normalized across institutions.

## DEFINITION DESCRIPTIONS

- **Description:** Description of the metric
- **Student Type:** Description of which student type--adult education/ESL, short-term career education, degree/transfer--the metric applies to
- **Display:** Whether the metric applies to the snapshot or cohort view
- **Data Source:** The entity providing data used in the calculation
- **Data Element:** The specific data elements used from each data source
- **Calculation:** The specific calculations used to derive the data value
- **Timeframe:** The specific timeframe used to determine the data for the metric
- **Locale:** The geographic parameters for which student data is captured for each metric
- **Value Type:** The type of data value populated for the metric (e.g., number, percentage)
- **Notes:** General information or caveats about the data for the metric

## COST OF LIVING ADJUSTMENTS

All earnings data have been adjusted for inflation, using the California Consumer Price Index (CPI). CPI measures price changes in goods and services purchased by urban consumers. The all urban consumer (CPI-U) represents the spending patterns of the majority of the population which includes professionals, the self-employed, the poor, the unemployed, and retired people, as well as urban wage earners and clerical workers (CPI-W). The U.S. Bureau of Labor Statistics (BLS) compiles and publishes the CPI for the Los Angeles area monthly, the Riverside area bimonthly, San Diego county bimonthly, the San Francisco area bimonthly, and the nation each month. A California CPI is calculated by the California Department of Finance as a population-weighted average of the BLS-published local area CPIs. The California CPI formula was developed by the California Department of Industrial Relations.

\*Base year is chained; 1982-1984 = 100. This table of CPI data is based upon a 1982 base of 100. A CPI of 195.3, as an example from 2005, indicates 95.3% inflation since 1982.

## LIVING WAGE

Living wage data is based on the cost of living, for a single adult, in the county in which each college's district office is located. Living wage figures are drawn from the Self Sufficiency Standard calculator produced by the Insight Center for Community and Economic Development at <https://insightccd.org/2018-self-sufficiency-standard/>.
