

Study Abroad Students
March 19, 2019

Dear Dr. Scroggins:

My name is Maya Alvarez-Galvan, and I am a professor in the Eng. Dept. at Mt. SAC. I am also one of the two Mt. SAC teachers who is teaching in the study abroad program this semester in Seville, Spain. I wanted to share this picture of the students from Mt. SAC. We were on a walking tour of Triana, a local neighborhood, and one of the students saw this boat and wanted a picture of all of us together with it. As you can see, Mt. SAC is never far from their thoughts. The kids are really enjoying themselves and taking advantage of all of the opportunities Spain has to offer them. We have had problems with a few students, but none from Mt. SAC. They are really representing the college well. I will send you more pictures soon.

Thank you for supporting this valuable program.

Maya Alvarez-Galván
