

## Los Angeles County Registrar-Recorder/County Clerk

DEAN C. LOGAN  
Registrar-Recorder/County Clerk

September 14, 2018

William T. Scroggins, President / CEO  
Mt. San Antonio Community College District  
1100 North Grand Avenue  
Walnut, CA 91789

Dear Mr. Scroggins:

In 2020, Los Angeles County will transition from polling places to Vote Centers consistent with the California Voter's Choice Act (SB 450). Vote Centers differ from polling places in that any eligible County voter can vote at any location in the County over an extended voting period as opposed to solely on Election Day. To ensure these locations are accessible and convenient to voters, the County has partnered with experts to conduct the Vote Center Placement Project (VCPP). The VCPP consists of a comprehensive spatial analysis to understand when and where voters are most likely to vote. We have already begun this process which includes 1) analysis of geospatial data and consumer behaviors, 2) collaboration with community groups and 3) direct voter engagement. We will then identify facilities that are in areas identified as convenient and accessible for voters.

Our office and our partner PlaceWorks are currently surveying various facilities that may serve our community as potential Vote Center locations for future elections. **I ask for your assistance in identifying someone in your school district that PlaceWorks can coordinate with to assist us in gathering information regarding your facilities—information such as facility size, parking availability and onsite contacts.** The information that you will provide will be used to create a database of acceptable facilities that meet key requirements relating to accessibility, proximity to public transit, available space, and population served, among other factors. PlaceWorks staff would like to begin this work making initial contact as soon as possible.

If you need additional information regarding the Vote Center Placement Project, please contact Aaron Nevarez, Governmental and Legislative Affairs Manager, at (562) 462-2800 or [anevarez@rrcc.lacounty.gov](mailto:anevarez@rrcc.lacounty.gov). For questions regarding the facility surveys and facility requirements, please contact Julian Capata at (213) 623-1443 or [jcapata@placeworks.com](mailto:jcapata@placeworks.com). Thank you in advance for your assistance with this effort. I look forward to collaborating with you to make voting easier and more accessible for Los Angeles County voters.

Sincerely,

DEAN C. LOGAN  
Registrar-Recorder/County Clerk
