

# Resilience Roadmap – Local Variance Attestations

A county that has met certain criteria in containing COVID-19 may consider increasing the pace at which they advance through Stage 2 of California's roadmap to modify the Stay-at-Home order.

The goal is to open the state in a way that minimizes the risk for COVID-19 to the extent possible, which includes: 1) limiting non-essential movement and mixing of populations, especially within jurisdictions with higher confirmed cases, and 2) delaying the opening of environments in which there is prolonged and close contact as part of the way business must operate.

The counties below have filed an Attestation that they have met the readiness criteria. These counties can move more quickly through Stage 2 opening sectors once state guidance is posted for that sector. Click on the county links below to see the Attestation Form and supporting documentation.
