

Fresh Success and Noncredit Students

Sunday, June 28, 2020

Hello, all,

We're very interested in moving forward with a letter of commitment for our noncredit and credit students to be part of the federal Fresh Success Program. It's one of the few programs that specifically includes eligibility for adult education students. The benefits are so critical and rarely available to noncredit students, including those in programs for first responders and essential worker as well as ESL, adult high school, and others. The attached documents explain the requirements and the benefits.

Although in most cases it's housed within a student services area, we are willing and positioned for SCE to be the point of entry for the students who wish to participate. We have the infrastructure that provides the required coursework, case management practices, and a current SCE Division team focused on students' basic needs.

The letter of commitment/intent is due at the end of July, so we're looking for your approval to move forward. Then we'll need a signed letter from Bill.

Looking forward to your input.

Thanks,
Madelyn
