Giugni; Tonette Salter; Van Saan

Good morning Vice Chancellor Mohr-

On behalf of the SEA Program workgroup I would like to provide this group's recommendations for the key elements of the Student Equity and Achievement Program, namely:

- MIS Data Elements
- Policy Alignment/Changes
- Funding Formula
- Student Education Plan Requirements
- SEA Annual Report

These subgroups developed these recommendations over many months, and some of the groups will continue their work/research in the fall. The recommendations document is attached. If you find you have any questions, I am happy to address them.

As a specialist supporting this critical program, I have appreciated the opportunity to work with a group of outstanding professionals in developing recommendations that I believe will assist the CO in creating a strong framework for the SEA program. I hope to continue working with this group in the coming year, as their input and experiences will help inform the resources and direction of our support.

I look forward to hearing how these recommendations are received by the Executive Team and how this group might continue its valuable work.

Thank you to the members of the SEA Program Workgroup for their time and commitment to this process. I have learned so much from all of you over the last few months and I'm excited to meet back up in the fall to plan our next year of work!

Warmly,

Barbara Lezon
