Re: Scholarship Fund

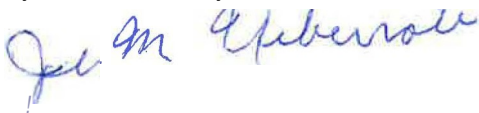

I graduated from Mt. SAC in the 1960's. At that time Dr. Marie Mills called me into her office and asked me if I planned to continue my education. I told her I could not afford to. She suggested that if she could get me financial help, would I. Of course I said yes. She contacted Dr. East-Novd at Cal-State and he arranged scholarships for me until I graduated. At that time I decided to pursue a Master's Degree and eventually took out a government loan, which was later forgiven because I went into education. I virtually received a free college education. I am appalled at the cost of even community college at this time.

Cal-State has kept in touch with me and I have made small donations, and since I retired I have donated to the Retired Teacher's Chapter, but have never done anything for Mt.

SAC, which was truly the most important part of my education.

I am over 91 years and technically challenged. I have had both my granddaughter and daughter helping me to find out how to donate and all they get is by wire, I cannot and will not do that. I do not know to whom this check should be made but please put it into a scholarship fund for anyone you choose.

Thank you. Sincerely,

Jene M. Ueberroth
