**Mt. San Antonio Community College (Mt. SAC) - Short-Term Apprenticeship and Vocational
Employment Program for Healthcare Related Industries - \$495,000**

1100 N. Grand Ave., Walnut, CA 91789

The project would develop pre-apprenticeships and apprenticeships in short-term vocational programs leading to immediate employment and career ladders in high demand health care related careers, including first responders, and technical workers, such as pharmacy and medical technicians. The demand for trained healthcare workers has never been so urgent, particularly as communities seek to recover from the economic downturn due to COVID-19.
