July

California is [monitoring COVID-19 closely](#) in each local community and keeping the public informed. We're teaming up with counties to fight it with every tool we have: [current local data](#), testing, contact tracing, infection control, emergency supplies, containment measures, and more.

Counties should be ready to restore limitations if outbreaks increase. The State Public Health Officer may take action if needed.

Counties that have remained on the County Monitoring List for 3 consecutive days will be required to shut down **the following** industries unless they can be modified to operate outside or by pick-up. Bars must close all operations even if they are operating outdoors.

- Dine-in restaurants
- Wineries and tasting rooms
- Movie theaters
- Family entertainment centers (for examples: bowling alleys, miniature golf, batting cages and arcades)
- Zoos and museums
- Cardrooms

The following counties have remained on the County Monitoring List for 3 consecutive days and must close indoor operations in certain sectors as of 7/1/20:
