

## STUDENT EQUITY AND ACHIEVEMENT PROGRAMS BUDGET AND STATE WORKGROUPS CABINET REPORT 12.08.20

### *Mt. SAC Budget Workgroup Update*

- *Draft SEAP Report*
- *Training SEAP Budget Presentation - Highlights*
- The Vice President of Instruction has formed a SEAP Instruction Leadership Team for division Deans and Directors with SEAP allocations to collaborate, provide peer support, ensure that the equity objectives and work plan are established and implemented, and to provide budget assistance. Research and professional development will also work in partnership with the projects' faculty and staff for training and to ensure equity and achievement data and reporting of outcomes.

### *State SEAP Workgroup Update*

The SEAP workgroup did not convene in the fall due to the Equity Conference held in September. Our presentation "Establishing SEAP Stability in a Time of Transition" was very well-received. Dr. Yamagata-Noji was responsible for leadership in the application and presentation process. The next workgroup meeting is to be held on Friday, December 18.

The agenda for the next SEAP workgroup meeting will include these topics:

- CCCCCO Executive Leadership feedback on the workgroup's proposed legislative changes
- Re-examining the legislative language around Educational Plans for more possible recommendations
- Aligning SEAP work to the Call to Action
- Student Equity and learning communities

Last year, the workgroup developed a charter that was submitted to the Executive Leadership team but there has not been any word yet as to whether this workgroup will evolve into a CCCCCO committee.
