

WASC Update

We are excited to report that the Western Association of Schools and Colleges (WASC) has issued Mt. SAC Early College Academy full accreditation for grades 9-12 through June 30, 2024. This is the highest status that a new school can earn through the process. WASC is a world-renowned accrediting association that determines if a high school offers a viable educational program and is a trustworthy institution for student learning. West Covina High School and Coronado High School are undergoing their mid-cycle reviews this spring and we eagerly await the results.
