

The 2021 ACCCA Salary Survey Results are Here!

Dear Colleagues,

On behalf of our Board of Directors and staff, I want to thank all of the districts who took the time to complete the annual ACCCA Salary Survey. Attached is your copy of the completed ACCCA Benchmark Compensation Report based on the results of districts who participated in the 2022 Survey. Data submitted by these districts is presented as submitted.

[View 2021 ACCCA Salary Surveys](#)

Although we were not able to collect data from 100% of all districts as we hoped, we feel the report reflects a sufficient level of participation revealing useful indicators of current prevailing wages and benefits by region, and by district size and configuration.

We sincerely appreciate your patience while we worked to complete and distribute the Report. As we attempted to secure updated information from as many of the 72 districts as possible, we also understood the incredible challenges faced by most districts now, including diminished and overworked staff, and a persistent lack of time to respond to our requests for data. Our special thanks go out to the amazing administrators, managers and staff of our colleges who consistently work with us to prepare and submit their data, and who graciously responded to our calls for assistance.

If you have questions regarding the current report, please email them directly to [communications@acca.org](mailto:communications@acca.org).

Sincerely,

Susan Bray

Executive Director, ACCCA
