FROM: Lizette Navarette, Vice Chancellor, College Finance and Facilities Planning Division

RE: Update on 2021-22 Full-Time Faculty Hiring Allocation

Summary

The 2021 Budget Act included \$100 million to hire new full-time faculty in order to increase districts' percentage of full-time faculty toward meeting the 75 percent full-time faculty goal. Districts had the option to elect to decline the allocation of full-time faculty hiring funds. A total of 70 districts elected to accept the full-time faculty funds while two districts declined.

2021 Budget Act Full-Time Faculty Hiring Fund

Process for Determining Allocation of Full-Time Faculty Hiring Funds

In early August, districts were provided information about their *initial 2021-22 Full-Time Faculty Hiring Fund Allocation* and asked to submit a *Notification of Intent to Hire* form identifying whether the district elected to accept or decline the funds. The initial allocation was calculated proportionally based on reported resident credit FTES as of the 2020-21 second principal (P2) CCFS-320 Apportionment Attendance Report. Concurrently, the Chancellor's Office also explained that any funds remaining due to districts' elections to decline would be re-allocated proportionally to participating districts based on the number of full-time faculty the district plans to hire, as reported on the *Notification of Intent to Hire* form.

Impact of Full-Time Faculty Hiring Funds on the Faculty Obligation Number (FON)

Current regulations require an increase to a district's FON for 1) annual percentage change in funded credit FTES, and 2) provision of funds to hire new full-time faculty. When the budget act provides new full-time faculty hiring funds, the FON increases by the total district allocation divided by the current statewide average cost to replace a part-time faculty position with a full-time faculty position. The current statewide average replacement cost is \$86,771. Districts who accepted full-time faculty funds will see an increase by one for each \$86,771 allocated, in addition to the annual adjustment for enrollment.

Implementation and Accountability

The 2021 Budget Act requires funds "be used to hire new full-time faculty for community college districts to increase their percentage of full-time faculty, toward meeting the 75 percent full-time faculty target." The existing mechanism to measure progress toward the 75/25 goal and for monitoring regulatory compliance is through the FON. Districts must continue to comply with the

Update on 2021-22 Full-Time Faculty Hiring Funds and Report September 17, 2021

FON and report full-time equivalent faculty (FTEF) data to the Chancellor's Office annually. Districts should work towards meeting their new FON in advance of reporting in fall.

Across the California Community College system, hiring decisions are determined locally based on consideration of enrollment trends, needs of students, regional demand, and existing and expected part-time and full-time faculty capacity. Further, districts will need to align with local policies and Equal Employment Opportunity (EEO) plans.

Attachment 1: Summary of Faculty Levels Prior to Allocations

Attachment 1 summarizes districts responses to reporting required as part of the 2021 Budget Act, and submitted by districts as part of the *Notification of Intent to Hire*. Specifically, districts were required to report:

- Number of full-time faculty as of July 1, 2021.
- Number of full-time faculty district was already planning to hire during 2021-22.

Reporting in Attachment 1 describes district faculty levels and faculty hiring plans prior to the allocation of 2021-22 full-time faculty funds.

Attachment 2: 2021-22 Total Full-Time Faculty Hiring Funds Allocation

Attachment 2 describes the total full-time faculty funding allocation each of the 70 participating districts will receive. District allocations are ongoing and will remain constant unless the Governor and Legislature provide an increase to the total fund. The allocations are calculated in accordance with regulatory requirements indicating a current statewide average replacement cost of \$86,771.
