

AMAC discussed Senate's *Faculty Primacy on Teaching Modality 2021-02 Resolution* at their October 18, meeting.

- [Resolution 21-02 – Faculty Primacy on Modality of Teaching](#)

A change was made to a joint statement of the AMAC workgroup (Meghan, Kelly F., Kelly R., and Chisa) as follows:

An intentional approach includes collaboration between deans, chairs, and discipline faculty based on student needs, student success, and student demand, and curricular design as considered from an equity lens. *The finalized schedule is an administrative decision. This collaborative scheduling process does not take away from the administrative right of faculty assignment to courses.*
