

**2022-23 School of Continuing Education (SCE) Research Plan**  
**Noncredit Impact on the Student-Centered Funding Formula**  
**September 27, 2022**

While aligning with the Student-Centered Funding Formula (SCFF), the SCE Research Plan addresses enrollment trends, equity, and student progress to Mt. SAC's SCFF outcomes. SCE continues to be committed to the missions of the College and the State system, and will also never waiver from our Division's vision. We continue to report relevant data from previous years as comparisons and to focus on growth, access, successes, and areas for further research and improvements.

*Table 1* is current through 2021-22 and shows total noncredit FTES, including Career Development and College Preparation (CDCP) as well as regular noncredit FTES in comparison with other colleges. Despite the impacts of pandemic, Mt. SAC continues to be the largest program in terms of noncredit FTES in the state. In 2021-22, we reported 8137 noncredit FTES, which reflects a growth of 3% from the pre-pandemic year of 2018 and a 5% increase from 2017. The protection provided by the Chancellor's Office enabled SCE to maintain its steady, consistent growth achieved in the past 5 years. *Table 2* displays FTES that are funded at the enhanced CDCP rate and Mt. SAC again continues to offer the largest statewide CDCP programs. We reported 6567 CDCP FTES in 2021-22, which is a 2% growth from 2018 and an 8% increase from 2017. As we begin tracking 2022-2023 enrollment, Summer 2022 noncredit enrollment was strong with FTES estimated at 4132. This means that in 2022-23, SCE is on track to exceed pre-pandemic level noncredit FTES. Due to this positive growth trend, SCE has a target of 8300 FTES for 2022-23.

<b>Table 1. Noncredit FTES Overall</b>	<b>Annual 2017-2018</b>	<b>Annual 2018-2019</b>	<b>Annual 2019-2020</b>	<b>Annual 2020-2021 *</b>	<b>Annual 2021-2022 *</b>	<b>% Change from 2017 to 2021</b>	<b>2022-2023 Goal</b>

<b>Research Question</b>				
<b>1. How do we expand noncredit enrollment by engaging potential, current, and former students during pandemic times?</b>				
<b>Objective</b>	<b>Measurable Outcomes</b>	<b>Data Source</b>	<b>Timeline</b>	<b>Status</b>
A. Examine enrollment and trends by SCE program and demographics.	Headcount and enrollment for 2021-2022	Banner	Fall 2022 and ongoing	Enrollment and demographic analysis completed for 2021-2022.  Analysis of enrollment reports by program is discussed at SCE Leadership Team meeting on a weekly basis.
B. Evaluate system barriers to enrollment.	Increase access to programs and enrollment of DI and underserved groups in our community	Registration by program and demographics; SCE webpages	Ongoing	As part of the Lumina Prioritizing Adult Community College Enrollment Grant, SCE is examining application processes for possible modifications, scaling interventions across division programs, and redesigning SCE webpages to show clear enrollment paths for each program.

<b>Research Question</b> <b>1. How do we expand noncredit enrollment by engaging potential, current, and former students during pandemic times?</b>				
Objective	Measurable Outcomes	Data Source	Timeline	Status
C. Develop outreach and marketing strategies and materials that are culturally connected to potential students and that consider pandemic times.	Expand outreach and onboarding to include nontraditional strategies and to enroll students lost during the pandemic as well as new students	Marketing materials; enrollment data;	Ongoing	<p>Engaging in marketing campaign to increase enrollment in SCE programs; focusing on outreach to underserved communities, such as adults with disabilities, immigrants, English language learners, and disproportionately impacted groups.</p> <p>Retention efforts are strong every term with teams calling students that miss class to offer support for returning to class.</p>

# School of Continuing Education Enrollment

## 2021-2022

The following graphics show unduplicated headcount for noncredit students. Numbers for 2021-22 are compared with 2020-21 and 2019-20. Notable increases in headcount that resulted in significant CDCP FTES gains were in ESL and Off-Campus HS (OCHS).

### Demographics - SCE Programs

### Growth by Ethnicity

Ethnicity	2020	2021	Growth
American Indian/Alaskan Native	27	93	+66
Asian	4539	6086	+1547
Black/African American	475	575	+100
Latinx	13364	14068	+704
Pacific Islander	34	55	+21
White	2131	3058	+927

### Headcount by Gender

# Growth in Positive Attendance FTES Summer 2021 and Summer 2022

Summer 2022 positive attendance FTES, which are the majority of noncredit summer attendance, increased by **742** when compared to Summer 2021.

The following charts show the programs with the largest increases in FTES when comparing Summer terms. In the 2021-22 academic year, 35% of course sections were online. So far in 2022-23, 24% of sections have been offered online, which shows an increase with in-person attendance.

## Growth in ESL

Term	Headcount	Increase
Fall 2020	1,290	+750
Fall 2021	2,040	
Spring 2021	1,042	+608
Spring 2022	1,650	
Summer 2021	775	+406
Summer 2022	1,181	
Fall 2021*	1,434	+443
Fall 2022*	1,877	

\*through week 4

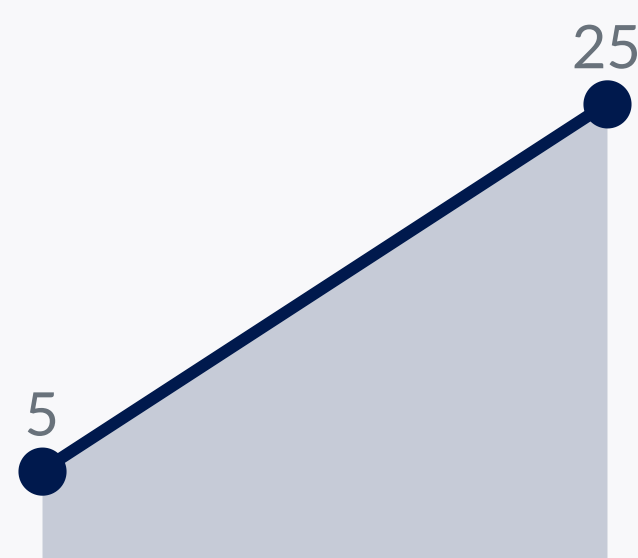

# Growth in Other SCE Programs

## Short-Term Vocational

- ✓ First cohort of **Pharmacy Technician** students started in Fall with 32 students
- .....
- ✓ **Physical Therapy Aide** program restarted in Summer with 40 students and running again this Fall with 30 students
- .....
- ✓ **Medical Assistant** program starting again in Fall with 42 students registered
- .....
- ✓ **Accounting** program restarting this Fall with 37 students registered

STV Health  
+20 FTES Summer

The group with the largest increase from 20-21 to 21-22 was Latino. Enrollment of Latino students in STV increased by over 50

## High School Referral

- ✓ The high school referral program has significantly grown since transitioning to an online modality
- .....
- ✓ Outreach to additional districts are part of the plan for 2022-23 in order to continue to further increase enrollment and student access
- .....
- ✓ Working on expanding capacity to run a state-wide HSR program administered through SCE. Faculty recruitment to expand across the state is in progress

High School Referral  
+58 FTES Summer

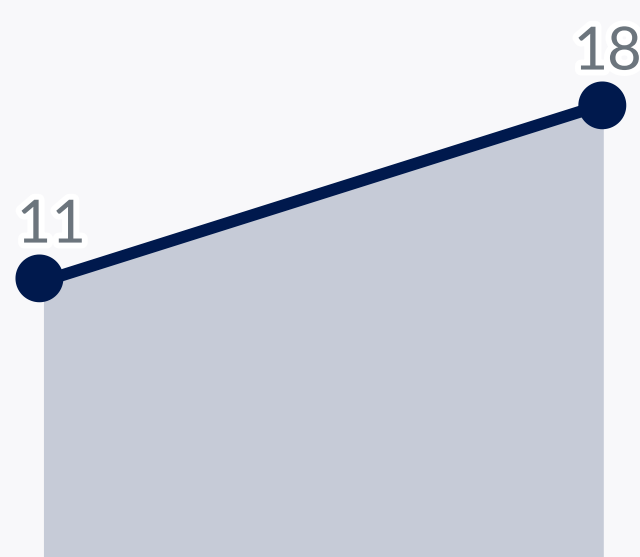

The groups with the largest increases have been Latinx students and Asian Males

## Adults with Disabilities

- ✓ Vocational classes for AWD students have been growing last year and this year. Students are taking **Basic Computing** and **Internet Research** courses. Enrollment has been over 100 students so far
- .....
- ✓ Adult Basic Education courses for AWD have been added for Fall. Over 50 students are enrolled to take **ABE English** and **Math** to prepare them for college classes

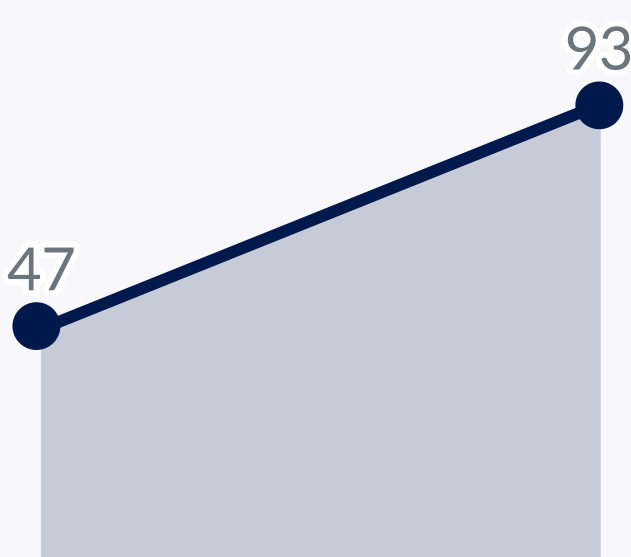

Adults with Disabilities  
+7 FTES Summer

## Education for Older Adults

- ✓ There has been large growth in Healthy Aging classes in 2021-22 and growth continues for the Fall
- .....
- ✓ Age group with the highest growth in enrollment are students between the ages of 70-90
- .....
- ✓ Targeted outreach to senior and community centers has started in the Palm Springs area

Education for Older Adults  
+46 FTES Summer

# Outreach and Marketing

## Marketing Materials:

- Partnered with Marketing and Communications Office to create mailer for all SCE programs and sent to district households.
- Partnered with marketing company that are experts in adult education outreach. Developed campaign "Build a Better Life" which aligns with the behavioral design approach learned from Lumina Grant.

## Call Campaign:

- Retention efforts have been focused on calling students who have stopped attending classes or who did not attend the first day.
- Teams of bilingual intervention specialists hired and assigned to call students from each department.
- Staff have been reconciling and updating student contact details, such as emails and phone numbers, to reflect more accurate information for follow-up.
- Phone contact occurring evenings and weekends to align with adult learners' schedules.

## Faculty Recruitment:

- Focused recruiting of adjunct faculty for programs in which qualified faculty have been hard to find, including STV, HS Referral (HSR), Summer HS, ESL, and new programs such as LVN and Pharmacy Tech.
- Recruitment will also focus on faculty to teach online, especially for HSR which is a fully online program.
- Hiring faculty in high demand programs will increase FTES. CNA could nearly double the number of cohorts from 4 to 8; Medical Assistant from 2 to 4. The potential for HSR to double in size is dependent on finding more faculty.

## Website Redesign:

- The SCE main webpage and all department webpages are being redesigned, using the behavioral design approach learned from Lumina grant.
- Pages will have clear paths to enrollment for students and will focus on eliminating barriers to registration.
- Landing pages for each program will be standardized to ease navigation.
- Main focus is on user experience and ease of finding information. Headers and footers are specific, clear and concise.
- Images reflect SCE actual student population and are from real SCE classes

School of Continuing Education

Get **Started!**

### Step 1

Complete School of Continuing Education Application (noncredit)

**Helpful Links:**

- » [SCE application](#)
- » [Video: How to submit SCE application](#)
- » [Application instructions](#)
- » [Application instructions español](#)

### Step 2

Log in to your Mt. SAC portal for an email with orientation details

**Helpful Links:**

- » [Log in to portal](#)
- » [Set up portal account](#)
- » [Video: How to log into portal](#)

### Step 3

Visit ESL Department at Mt. SAC to complete orientation and placement testing

**Helpful Links:**

- » [Email invitation will have the day and time for testing](#)
- » [Directions to ESL building](#)

### Step 4

Register for classes on-site or online after the placement test, and you are ready to attend the first class!

**Helpful Links:**

- » [View ESL class schedule](#)
- » [Video: How to view your schedule in your portal](#)
- » [More info on getting started](#)

## Focus for 2022-2023

- ✓ Meet growth target of 8300 FTES, which is an additional 300-400 noncredit FTES, primarily in CDCP courses.
- ✓ Increase transitions from noncredit to credit. Targeted transitional support that includes campus partners (DREAM, EOPS, CalWORKs, ACCESS, Admissions, IT).
- ✓ Secure funding source to train AWD students to enter the workforce and train potential employers in hiring AWD students.
- ✓ Increase efforts to transition more ESL/VESL students into credit programs and vocational pathways leading to employment.
- ✓ Lumina Grant: Prioritizing Adult Community College Enrollment (PACCE)  
Using behavioral design methodology to identify behavioral problems that students face, SCE will diagnose drivers of the problem, and engineer design solutions. The Mt. SAC team has started this work by identifying barriers within the SCE enrollment/registration process. Gaps were identified in the processing of applications and in communication with students. Processes are now being addressed within each SCE area that will mitigate potential student losses due to the application. The behavioral design approach will continue to be a guiding principle as we identify other barriers to student enrollment and success.
- ✓ Continued Community Outreach: Focus on underserved communities, such as adults with disabilities, immigrants, English language learners, and disproportionately impacted groups.
- ✓ Increase completions for DI populations and students of color.
- ✓ Increase and emphasize support for adult re-entry students who have interest in post-secondary transition.
