

COMMENCEMENT SURVEY RESULTS

Administered to Graduating Student at Commencement 2025 by Student Life

At the Mt. San Antonio College 2025 Commencement graduates were asked to complete a survey after they checked in. The graduates at the ceremony were selected to be surveyed, rather than prospective 2026 graduates for several practical reasons:

- Students typically do not consider commencement during the Fall semester and may provide different feedback than students in the Spring.
- Winter intersession has a high propensity of online courses and may present challenges with obtaining survey results.
- Surveying students in the Spring Semester would leave insufficient time to act on the feedback before the ceremony.

A total of 377 graduates responded to the survey. The results are included below:

- Would you have preferred a morning Commencement Ceremony?
 - Yes - 200 (53%)
 - No - 177 (47%)
- Would you prefer a Saturday Commencement Ceremony?
 - Yes - 138 (37%)
 - No - 239 (63%)
