

## Chapter 3 – General Institution

### BP 3505 Emergency Response Plan

#### References:

Education Code Sections 32280 et seq. and 71095; Government Code Sections 3100 and 8607(a); Homeland Security Act of 2002; National Fire Protection Association 1600; Homeland Security Presidential Directive-5; Executive Order S-2-05; 19 California Code of Regulations Sections 2400-2450; **34 Code of Federal Regulations Part 668.46 Subdivision (g)**

**The District shall have emergency response and evacuation procedures for notifying the campus community in the event of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus.**

The College President/CEO shall establish procedures that ensure that the District implements a plan to be activated in the event of an emergency or the occurrence of a natural disaster or hazardous condition. This plan must comply with the National Incident Management System (NIMS), the Standardized Emergency Management System (SEMS), and should incorporate the functions and principles of the Incident Command System (ICS), the Master Mutual Aid Agreement (MMAA), and any other relevant programs. The plan must incorporate NIMS and SEMS to facilitate the coordination between and among agencies in the event of an emergency or natural disaster.

Compliance with NIMS and SEMS mandates include, but are not limited to:

- Establishing disaster preparedness procedures or a plan; and
- Completion of training sessions by College personnel in compliance with NIMS and SEMS guidelines.
  - Training requirements vary based on job titles or assigned roles within the emergency plan.

College personnel must be informed that, as public employees, they are also disaster service workers during national, state, and local emergencies. The District must ensure that its employees are in compliance with the disaster service worker oath requirements.

The College President/CEO will ensure that a team is created to carry out compliance with NIMS and SEMS mandates. The responses to emergencies or natural disasters are organized by SEMS into five categories: field response, local government, operational areas, regions, and state.

The plan shall contain information regarding activation and chain-of-command responsibilities. Compliance with NIMS mandates requires planning and incorporation for all phases of emergency management including mitigation and prevention, preparedness, response, and recovery. The District must ensure that its plan is updated regularly. Colleges must comply with NIMS and SEMS to receive federal or state funding.
