Subject: AB 288 (Holden) Concurrent/Dual Enrollment

Dear Colleagues,

I'd like to provide an update on AB 288 (Holden), our concurrent/dual enrollment legislation and also express my appreciation for the letters of support and board resolutions we continue to receive from your colleges.

Earlier this month I sent the message below regarding the proposed amendment to the bill that would address colleges serving students outside of their service area. In follow up, I want you to know that the author and the Assembly Education committee accepted a slightly different version of the proposed amendment that references and is focused on the CCAP agreement. In the end, I think the adopted amendment achieves the same outcome we were seeking with the original language. Following is the language that was amended into AB 288.

(e) A community college district shall not enter into a CCAP partnership with a school district within the service area of another community college district, except where an agreement exists, or is established, between those community college districts authorizing that CCAP partnership.

Lastly, I want to note that AB 288 passed out of the Assembly Education committee Wednesday and is now headed to the Assembly Appropriations committee. It continues to have broad support and there is no registered opposition.

As always, please do not hesitate to contact me if you have any questions or if you'd like to discuss.
