

From: Bruce Noble <Bruce.Noble@riohondo.edu>  
To: HVACR Collaborative Members  
Date: 4/6/2015  
Subject: HVACR Collaborative Meeting April 24, 2015

We have scheduled the next HVACR Collaborative Faculty Forum meeting for April 24<sup>TH</sup> – 9:00 – 1:00: Hosted by Rick Hatlen and Luis Reyes at the LOCAL 250 Joint Journeymen and Apprentice Training Center (JATC):

2220 South Hill Street  
Los Angeles CA 90007  
(213) 747-0291

The Meeting subjects include: Engaging the JATC and exploring the intersections between the Collaborative and The JATC apprenticeship programs. We also should talk about the value of mapping the collaborative curriculum – course by course – to verify alignment and start planning the next phase of the project. Follow the [link](#) to the NARC HVAC Career Ladder, Curriculum and Job Descriptions.

If each collaborative member could identify the courses you consider as “CORE” courses in your program that lead toward the *NATE Core* or *HVAC Excellence – Workforce Ready Exams* ([link](#)) and forward me the CORs and SLOs, I will begin mapping the programs.

Please let me know if you have any questions, suggestions or comments.

Thank you all for your help in capturing a lion's share of the available Enhancement Fund allocations.
