

Institutional Effectiveness Partnership Initiative Survey

3/7/2016

To all California Community College Presidents and Chancellors:

As part of the statewide Institutional Effectiveness Partnership Initiative (IEPI), we are conducting a survey of all staff, faculty, leadership and trustees within the California Community College system.

We urge you to get your faculty, staff and administrators involved in this important project, as it will help us collect the information we need to improve practices and overall performance throughout the state.

Below is a link to the online survey, and attached is a sample letter to utilize when asking staff to complete the survey. While the survey is made for all faculty, staff, and trustees, you are welcome to send it to a smaller subsection of your choice; college leaders for example. The survey will be available until Friday, March 18th.

Please distribute an email and web link to any internal stakeholder you feel may be able to provide valuable input.

I thank you for your participation in this research, and I look forward to your college/district insight on how our Institutional Effectiveness Partnership Initiative can better support your institutions.
