

Americas Promise Job Grant Applicant
06/27/2016

Dear Dr. Scroggins,

I have heard from Michelle Yanez at the San Gabriel Valley Economic Partnership that you have reached out to her regarding Mt. SAC submitting a proposal for the Department of Labor's America's College Job Driven Promise Grant.

That is terrific.

I want to let you know, that East San Gabriel Valley ROP has been asked to apply in partnership with the Los Angeles County Department of Community and Senior Services (LA County WIOA provider).

The RFP allows agencies to be partner applicants on more than one proposal, even though an agency can only be a lead applicant on one RFP.

I just finished meeting with the County this morning. I would like to know if Mt. San Antonio College would also be willing to partner with the County and ESGVROP on the County application. As you know ESGVROP was funded by DOL in 2014 for a Youth Career Connect grant, and we included four years of Marie Tyra's costs as a line item in our YCC budget.

I would also want to do the same thing with this application. If funded we could extend funding for Marie Tyra for at least an additional 3 years beyond the current end of the YCC grant in 2017. In addition, we would hope to contract with Mt. SAC for additional structured activities.

I personally wrote the successful YCC application along with my writing partner, Judy Gilleland. Judy and I will again be the major writers of the LA County application, along with the County's grant writer.

I hope you will consider being a partner with the County application in addition to submitting your own RFP.

Thanks so much. I hope to hear back from you soon.

Sincerely

Laurel Adler
Superintendent
East San Gabriel Valley ROP Technical Center
