Unfortunately, Phil 103, Phil 104A and Phil 104B could not complete, because they were taught by a faculty member who retired in 2013. With the loss of our faculty member whose area of specialization was History of Philosophy we have not been able to offer those necessary courses, and have not been able to complete the SLOs.

2014/15 Instructional Program Review

Program-Level SLO Assessment

▼ Text and Image Section

The SLOs in the Philosophy Program are on schedule. At the beginning of the first SLO cycle faculty members decided on SLO course assessments. All courses have been assessed, passed, and entered according to the schedule with the exception of Phil 103, Phil 104A and 104B which have not been taught recently. Please refer to the Course-Level SLO section.

With the exception of Phil 103, 104A and 104B the targets are exceeded, representative samples of students have been assessed, and no further action is necessary.

In Spring 2015 we will complete the Program/Discipline Review based on the completed cycle.
