

### Planned Grant Submissions

Due Date	Funding Source, Program Title, and Funding Cycle	Purpose	College Contacts	Amount Requested and Matching Funds	Project Period	Sustainability Requirements & Existing Resource Needs
2/1	<p>Opportunity Institute</p> <p>Renewing Communities: California Pathways from Prison to Postsecondary Education</p> <p>This is an annual grant competition; however, it is unclear whether future grants (up to two additional years) will be renewals or new competitive applications.</p>	<p>The purpose of the grant is to expand and improve college pathways for criminal justice-involved students through: ensuring high-quality academic programming and support structures that are responsive to the needs of this target population; enabling students success by prioritizing academic and non-academic support services; building links from corrections to higher education and fostering collaboration among educational institutions, correctional agencies, and/or reentry organizations; demonstrating long-term sustainability and capacity for scalability, including matching public resources; and committing to engaging in program evaluation and a learning community with other grantees.</p>	<p>Madelyn Arballo, Continuing Education</p>	<p>The estimated average award is \$220,000 for a one-year period, but may range depending on the number of students served.</p> <p>Matching funds are required, at 25% of the total project costs. Up to one-third of matching funds may be in-kind, with the remaining two-thirds cash match (e.g., partner resources, AB 109 funding, AB 86 funding).</p> <p>Preference will be given to applicants that demonstrate a match greater than 25%.</p>	<p>5/1/2016 to 4/30/2017</p>	<p>Applicants are encouraged to increase their matching contribution over a three-year period, followed by sustainability beyond grant funding.</p> <p>A requirement of the grant is participation in the program evaluation, which will include the collection of relevant data on participants, which would require institutional research support.</p>

### Planned Grant Submissions

Due Date	Funding Source, Program Title, and Funding Cycle	Purpose	College Contacts	Amount Requested and Matching Funds	Project Period	Sustainability Requirements & Existing Resource Needs
1/6	<p>National Science Foundation</p> <p>Research Coordination Networks (RCN)</p> <p>This is an annual grant competition.</p> <p><i>(This is a probable grant application, but the Biological Sciences faculty have not finalized their plan yet.)</i></p>	<p>The purpose of the grant is to advance a field or create new directions in research or education by supporting groups of investigators to communicate and coordinate their research, training, and educational activities.</p> <p>The Biological Sciences Department proposes a one-year planning grant focused on the Undergraduate Biology Education (UBE) track, which would prepare the college to apply for a full RCN-UBE grant during the next annual competition.</p>	Beta Meyer, Biological Sciences	<p>The amount of funds requested is unknown at this time but will likely not exceed \$50,000 for a 12-month period.</p> <p>No match is required.</p>	9/1/2016 to 8/31/2017	<p>Sustainability is not a requirement of funding.</p> <p>We do not anticipate the need for existing college resources or institutional research support, as this is just a planning grant.</p>
1/11	<p>Arthur N. Rupe Foundation</p> <p>Dorothy Rupe Caregiver Program</p> <p>This is an annual grant competition.</p>	<p>The purpose of the grant is to expand the number of students served in the Certified Nursing Assistant (CNA) Program through the creation of two additional cohorts of CNA students, support services, and enhanced instructional supplies and materials.</p>	Nancy Meggelin, Mental Health/HCRC	<p>The College will request approximately \$35,000 for a one-year period.</p> <p>No match is required.</p>	7/1/2016 to 6/30/2017	<p>Sustainability is not a specific requirement, and the Rupe Foundation does not require any monetary commitment beyond grant funding.</p> <p>We do not anticipate the need for additional space or institutional research support.</p>
