

The Partnership to Launch CTE Advisory Committee

June 17, 2016

Career Technical Education (CTE) Advisory Committee

At Wednesday's SGV City Managers Association's annual conference, the Partnership highlighted three new initiatives: Sector Councils, Economic Development PowerSite, and **CTE Advisory Committee**.

As the need for workforce development arises, the Partnership will form a CTE Advisory Committee to serve as a bridge between businesses and schools. If you would like to be part of the committee or know more about it, contact Dr. Michelle Yanez myanez@valleyconnect.com.

The Partnership Website Update

As we prepare to launch the SGV Economic PowerSite, we will start a series of updates on our website. You probably have already noticed that our website URL is now www.sgvppartnership.org. Rest assured that valleyconnect.com still works; it will simply be redirected to sgvppartnership.org. In a week or two, we will begin the same transition for our email domain.
