

# THERE'S STILL TIME TO APPLY TO UC!

Transfer students now have until **January 4, 2016** to submit their application for admission.

## WE WANT YOU HERE

Students just like you come to UC every day and thrive on our campuses. Just consider:

- Two out of three transfer students who apply broadly to UC get in.
- More than 60 percent of transfer students pay no tuition, thanks to UC's financial aid.

And we're doing all we can to make transfer easier. That includes giving students a little more time to complete their UC application.

## HOW IT WORKS

Just go to **[ucal.us/transferextension](http://ucal.us/transferextension)** to file an application by the **January 4, 2016** deadline.

You can also complete an application you've already started or add more campuses to an existing application.

And remember, fee waivers are available to help eligible students cover the cost of applying to up to four campuses.
