

1/16/2015

Bill,

Thank you for lunch today. Thoroughly enjoyable.

I will be following up with Provost Jonathan Reed on the following items. Jonathan will be contacting you for follow up on each topic with the appropriate administrator. Let me know if you need me to discuss any of this with you further. Jonathan will pick up the ball from here.

1. La Verne work with Mt. SAC on undergraduate research. This will accompany appropriate new equipment in the sciences at La Verne that would benefit both La Verne and Mt. SAC students. (Jonathan should talk with Bill, VP for Instruction, Dean of Natural Sciences.)
2. Juniors/Senior at La Verne in the STEM programs serving as paid tutors for Mt. SAC students. (Jonathan should talk with Irene Malmagren- VP for Instruction.)
3. Since you are building a new STEM center and we will be building a new building (with some sciences) we should see where each other has gaps. (Jonathan should talk with Irene and Matt Judd/Dean of Natural Sciences.)
4. Look to identify a transfer ladder for health programs Mt. SAC-La Verne- Western University.
5. Look to create a transfer program for Physician Assistant Mt. SAC-La Verne. (Jonathan should talk with Irene Malmagren.)
6. Small Business Development Center- Mt. SAC students interning in the SBDC. (Abe, Sean and Bill should talk.)
7. Connect with Mt. SAC- Center for Excellence/ identifying where there are/will be jobs in the community. There are dollars that could help to make this connection a reality and productive. (Abe, Jonathan, Sean and Bill should talk.)
8. More discussion about training in businesses- contract education. Understanding how business training works. (Sandra Sisco and Jonathan Reed should talk.)
