Field Contract: Facilities Director initials and VP of Administrative Services

**\*Bid Limit. \*\*California Uniform Construction Cost Accounting Commission (CUPCAA) threshold.**

**Project Change orders:** Per PCC 20659 - Change order subject to advertised bidding that equal the greater of \$45,000 or 10% above the original order, require board approval and may be subject to rebidding.

**Project Assignment:** Typically Used for master agreements for professional services with no fixed amount. Must need Board Approval if amount exceeds the bid limit.

**Work Authorization:** An official letter to formalize authorization for work to proceed. May need to provide for professional services.

**1. Maintenance work per PCC 20656 is defined as:**

For purposes of Section 20655, "maintenance" means routine, recurring, and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility for its intended purposes in a safe and continually usable condition for which it was designed, improved, constructed, altered or repaired. "Facility" means any plant, building, structure, ground facility, utility system, or real property.

This **definition of "maintenance"** expressly includes, but is not limited to: carpentry, electrical, plumbing, glazing, and other craft work designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning, and other operations on machinery and other equipment permanently attached to the building or realty as fixtures. This definition does not include, among other types of work, janitorial or custodial services and protection of the sort provided by guards or other security forces. It is the intent of the Legislature that this definition does not include painting, repainting, or decorating other than touchup, but instead it is the intent of the Legislature that such activities be controlled directly by the provisions of Section 20655.

**Force Account & Day Labor per Under Public Contract Code (PCC) 20655:**

(a) In each community college district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20656 by day labor, or by force account, whenever the total number of hours on the job does not exceed 350 hours. Moreover, in any district whose number of full-time equivalent students is 15,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20656, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of materials does not exceed twenty-one thousand dollars (\$21,000). (b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

**"Force Account" is defined as:** work performed on public projects using internal resources.

**2. Civil Code 9550 (Bond requirements)** - A direct contractor that is awarded a public works contract involving an expenditure in excess of twenty-five thousand dollars (\$25,000) shall, before commencement of work, give a payment bond to and approved by the officer or public entity by whom the contract was awarded. **"Public Works contract" is defined as:** an agreement for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

**3. Prevailing Wages >\$1000** - Sole proprietors/owners are NOT exempt from public works requirements and must maintain certified payroll records and pay prevailing wages to themselves.

**4. Cooperative Agreements/CMAS per Public Contract Code (PCC) 10299 (b):**

(b) The director may make the services of the department available, upon the terms and conditions agreed upon, to any school district empowered to expend public funds. These school districts may, without further competitive bidding, utilize contracts, master agreements, multiple award schedules, cooperative agreements, or other types of agreements established by the department for use by school districts for the acquisition of information technology, goods, and services. The state shall incur no financial responsibility in connection with the contracting of local agencies under this section.

**5. Emergency per Public Contract Code Section 20654 (a):**

(a) In an emergency when any repairs, alterations, work, or improvement is necessary to any facility of the college, or to permit the continuance of existing college classes, or to avoid danger to life or property, the board may by unanimous vote, with the approval of the county superintendent of schools, do either of the following:

- (1) Make a contract in writing or otherwise on behalf of the district for the performance of labor and furnishing of materials or supplies for the purpose without advertising for or inviting bids.
- (2) Notwithstanding Section 20655, authorize the use of day labor or force account for the purpose.

**6. Field Contract** - If an agreement/contract (i.e. RFP, Bid, Master Agreement) is executed no need to execute a field contract.
