

TRANSFER HOUSING SUPPORT

SOME INFORMATION TO HELP YOUR TRANSFER DECISION

If you plan on transferring to a University, having stable housing is one of the most critical resources to ensure your success in completing your degree. Connect with the foster youth resource program on your campus to ensure that *your* housing needs as a former foster youth are met by your campus. Many campuses have taken the steps to support current/former foster youth in accessing stable housing on their campus, take advantage of this support and start early!

4 TIPS FOR A MORE SUCCESSFUL HOUSING JOURNEY

1) As you apply to your university, share that you are a former foster youth and that you are interested in on-campus housing.

2) After submitting your letter of intent to your new university, create your student portal and submit your on-campus housing application as soon as possible--most applications will require an initial application fee!

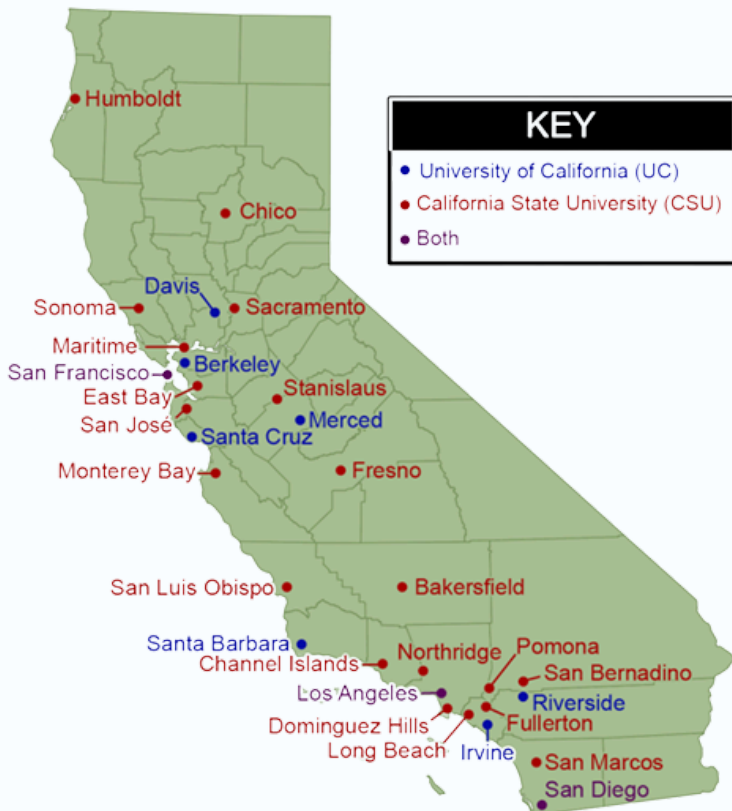

a. Ask your housing department for assistance in waiving, or deferring, this initial fee!

3) We highly suggest selecting “year-round” housing options offered at your university, typically referred to as: suites, or apartments.

a. Unlike the dorms, which close during the Winter and Summer sessions. Suite and Apartment housing options stay open year round, so you will always have housing as a student, even when classes are not in session.

4) Enroll into your campus foster youth support program as soon as possible

a. Most foster youth support programs can assist you in securing on-campus housing---but you must connect with your foster youth support program early!

CSU TRANSFER HOUSING & GS

CAL POLY POMONA
BRONCOS
