

About SCE

School of Continuing Education Accreditation

Mt. San Antonio College School of Continuing Education (SCE) holds a six-year status of accreditation as an adult school by the Accrediting Commission for Schools (ACS). As a division of Mt. San Antonio College, Continuing Education is also accredited by the Accrediting Commission for Community and Junior Colleges (ACCJC). Both ACS and ACCJC are part of the Western Association of Schools and Colleges (WASC), an institutional accrediting body recognized by the U.S. Department of Education and the Council on Higher Education Accreditation (CHEA).

School of Continuing Education's initial ACS WASC application was completed in 2009 and the first accreditation was granted in 2012. In the spring of 2018, SCE completed a self-study, and received a visit from a team of peers from different adult schools within the ACS WASC system and was granted a six year accreditation. This accreditation was reaffirmed in 2021 and SCE will complete another self-study in 2024.
