Community and Contract Education

SCE Testing Center

The SCE Testing Center provides secure, computer-based and private testing to the community. We offer our services to both students and professionals who need to take paid certification exams. Our goal is to maintain a testing location that minimizes stress by providing a professional yet comfortable atmosphere.

IMPORTANT PARKING REMINDER:

In order to park in any parking lot on campus, you must pay \$5 for an all-day parking pass. You can pay at the grey kiosk in front of Building 40 in Lot F. Please follow the parking pass instructions. We are not responsible for any parking tickets you may receive.
