Subject: Free Feminine Hygiene Project

Date: May 07, 2019

**Whereas:**

- Associated Students, Mt San Antonio College Student government understands that every month, a female goes through a natural process call menstruation or period.

**Whereas:**

- A period is when a woman's body releases tissue that the body no longer needs. There are times in when a female does not have access to a pad or tampon.
- This is because they either cannot afford it or are far away from the health center.
- There are buildings around campus that does not have a coin operated for feminine hygiene products. However, this is a basic need that sometimes students cannot afford nor can they control.

**Whereas:**

- Our organization finds it imperative that our campus should maintain the needs of individuals to provide the service of feminine hygiene products which should be a given human right. Associated Students consists of individuals that sometimes find it hard to have access to accommodate their natural needs.
- There was overwhelming support from a Conversational Circles Event (hosted by Associated Students) that products should be free. Whether in the form of coin operated machinery or putting items in a basket for individuals to take what they need.
- Any feminine hygiene products provided by the campus should be Chlorine Free and made by organic cotton so that our students at large do not get affected by the chemicals contained in some pads or tampons.

**Whereas:**

- This will make students worry less about having to buy tampons or pads and focus on their academics more.
- This will help the community feel more accommodated by the campus as a whole.

**Therefore:**

- Be it resolved, that the A.S. Senate, the A.S. Executive Board, and the A.S. President approve Free Feminine Hygiene Projects.

**A.S. Senate**
