Subject: Mandatory Education Plan Check-in Date: _____

Whereas: The goal for many students attending Mt. Sac is to transfer from this institution to a four year university. In order to do so, students must engage in classes that are specifically required for their majors and possible universities. However, this can sometimes be a rigorous process for students when they are left without guidance.

Whereas: There are many students on campus who have unintentionally taken classes they did not need at the expense of both their time and finances. The institution should not expect students, especially incoming freshmen, to be able to navigate the system alone. No student knows the proper route to take without engaging in their proper research.

Whereas: Therefore, Associated Students urges for there to be mandatory meetings between students and their counselors that will occur at least once every Fall and Spring semester, in order to provide students with more direction.

Whereas: These meetings would allow the students to review and update their education plans. It is important for all students on campus to have an education plan that serves as a road map leading them towards their goals. There is no reason why a student should be left in the dark, not knowing which courses to take next, upon finishing a semester.

Therefore: Be it resolved, that the A.S. Senate, the A.S. Executive Board, and the A.S. President approve Mandatory Education Plan Check In.
