Subject: Creation of STEM Senator Position

Date: 10/5/16

Associate of Science Natural sciences

Whereas: Where we stand now, the STEM departments and programs for Mount SAC have no representative in the Student body Senate. Where we stand this group's needs and voices are not being heard or considered.

Whereas: A STEM Senator position would allow us to hear their views and position, while giving an incentive to join Associated Students.

Whereas: The role and goal of Associated Students is to represent the diverse needs and responsibilities we hold as student leaders, and this would further fulfill that need.

Whereas: This would ensure that the diverse needs will be met of the student body population.

Therefore: Be it resolved, that the A.S. Senate, the A.S. Executive Board, and the A.S. President approve Creation of STEM Senator Position.
