Mt. San Antonio College Campus Loading/Unloading Policy

NOTE: Off campus groups may not drive onto campus without prior permission.

- Before entering campus you must check in at the Information Kiosk (see map for location).

- If you must drive onto the campus please enter through the "Service Vehicle Entrance Road." See diagram to the right for the route to use and STOP point.

- Please limit the time you are on the campus to the amount of time it takes to load or unload your vehicle and no longer.

- If the vehicle is left unattended for an inordinate amount of time or blocks traffic, the vehicle is subject to being towed. Do not block emergency vehicle access.

- Be careful and alert for students at all times. The speed limit on campus is "no faster than the average student walks." You must turn on your Hazard Lights while on campus.
