

# Reinforce and Enrich your skills in the

# HCRC

## OUR SERVICES

- RN assistance in clinical skills practice and skills validation.
- Medical and hospital equipment, supplies, manikins, simulators, and training aids available for hands-on demonstration.
- Study and computer lab available for multi-media learning resources.
- Patient Care Manikins with heart and lung sound capability available for use.

### WHAT IS HCRC?

The HCRC provides a state of the art learning lab environment for Mt. SAC credit and non-credit health careers students. Students are assisted and supported while developing new health related skills and knowledge, as well as, enhancing previously learned clinical skills, and participating in simulated clinical activities.

The HCRC is available to the following health career programs:

EMT

Nursing

Paramedic

Psychiatric Technician

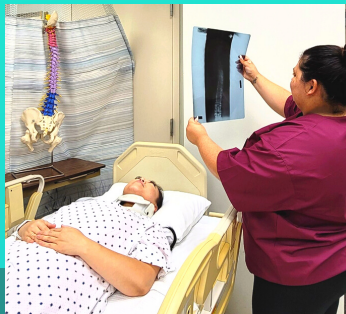

Radiologic Technology

Respiratory Therapy

CNA

Medical Assistant

Personal Care Aide
