January 3, 2024

To Whom It May Concern:

Mt. San Antonio College's [Registered Veterinary Technology Program](#) is accredited by the American Veterinary Medical Association (AVMA). Effective immediately, the AVMA is mandating students in the RVT Program to complete a 2-dose, Pre-exposure Prophylaxis Rabies vaccination series before being permitted to register into courses that require students to handle live animals.

This letter serves as documentation of said accreditation mandate for Mt. SAC students in the Registered Veterinary Technology program.

If there are questions, please contact Mt. SAC's Natural Sciences Division at (909) 274-4425 or the Office of Instruction (909) 274-4200 during business hours.

Sincerely,

Kelly M. Fowler  
Vice President, Instruction  
Office of Instruction
